MODULE 35
Establish short-term goals.

Objectives:

A. Set goals clearly in mind.
B. List short-term goals.

MODULE 35: INFORMATION SHEET

TO THE STUDENT: Read and study this information sheet and then complete the student activities at the end of this module.

What is a goal?

A wish is simply a desire or a dream while a goal is the end to which effort is directed. Sometimes people confuse their goals with their wishes. A wish can become a goal if a person actively works toward reaching it. By having your goals clearly in mind, you can decide how important each is to you. When you do this, you are prioritizing your goals.

Some students feel they cannot control the shape of their future. Others feel the future is all a matter of chance. Through effort and determination, a student can control what is going to happen, when it will happen, and how it will happen.

Short-term goals are of various types: work, non-work, personal relationships and learning. Trying to achieve one goal might help or hinder reaching another.

By thinking about what you would enjoy about reaching your goals, you can make decisions and write down lists of goals. Finally, you can rate your goals in order of importance to you and begin to develop strategies to reach them. For example:

Goal: Improve my English grade this marking period.

Strategies: Make a study plan and do all homework.
Get a study partner.
Check with my English teacher every two weeks to see how I'm doing.
TO THE STUDENT: After reading the Information Sheet above, complete the following questions.
